GREATER WASHINGTON ANTI-DUI GROUP **URGES SAFETY ON SUPER BOWL SUNDAY**

OVER ONE-THIRD OF ALL U.S. TRAFFIC DEATHS ON GAME DAY CAUSED BY DRUNK DRIVERS

Vienna, VA, Jan. 20 – While the teams, site and time have been finalized, a local anti-drunk driving organization is urging the public to also develop a game plan to prevent drunk driving during this year’s “Super Bowl Sunday.”

During Super Bowl Sunday, historically 36-percent of all traffic fatalities occurring in the U.S. are alcohol-related according to the National Highway Traffic Safety Administration (NHTSA).*

“With over a third of all U.S. traffic deaths being caused by drunk drivers during Super Bowl Sunday, it’s important to have a game-plan prior to kick-off and to beat this too often deadly opponent,” said Kurt Gregory Erickson, President of the nonprofit Washington Regional Alcohol Program (WRAP), a 32-year-old public-private partnership combating drunk driving.

The Vienna, Virginia-based organization has issued a number of “safe celebrating” tips to prevent drunk driving during “Super Bowl Sunday,” scheduled for February 2, 2014. These tips include:

- **Planning ahead and designate a driver** if you’re celebrating with alcohol.
- **Using alternative transportation** like taxi cabs.
- **Being a responsible host by:**
 - ✓ **Not serving anyone who appears to be impaired.**
 - ✓ **Serving food with alcohol** (high protein foods like meats and cheeses stay in the stomach longer thereby slowing the body’s alcohol absorption rate).
 - ✓ **Using a non-carbonated base in alcoholic punches** (the body absorbs alcohol faster when mixed with carbonation).
 - ✓ **Serving non-alcoholic beverages** as an option.

- ✓ **Never serving minors.**
 - ✓ **Closing the bar at least an hour before the event's end.**
 - ✓ **Designating a bartender / don't let guests mix their own drinks.**
 - ✓ **And never allowing impaired guest to get behind the wheel.**
-
- **Reporting drunk drivers.** *(District and Maryland law enforcement professionals both encourage the dialing of "911" for motorists to report suspected drunk drivers. In Virginia, the use of the "#77 feature" on wireless telephones is encouraged for the same.)*
 - **Wearing your seatbelt.**

"Wearing a seatbelt may not be widely viewed as a tool in this effort but the wearing of a seatbelt may be your best defense against a drunk driver," said Erickson. ***"The bottom-line is that the routine wearing of seatbelts is the single most effective measure to reduce crash-related deaths and injuries."***

Founded in 1982, the Washington Regional Alcohol Program is an award-winning public-private partnership working to prevent drunk driving and underage drinking in the Washington-metropolitan area. Through public education, innovative health education programs and advocacy, WRAP is credited with keeping the metro-Washington area's alcohol-related traffic deaths consistently lower than the national average. WRAP, however, may best be known to area residents via the organization's popular free cab ride service for would-be drunk drivers, SoberRide®.

For more information, visit WRAP's web site at **www.wrap.org**.
