- ▼ Interactive use of unique “Fatal Vision Goggles”
- ▼ Raises awareness of the consequences of underage drinking and impaired driving with use of PowerPoint presentations and videos
- ▼ Associates stereotypical student decisions with alcohol-induced risky behaviors
- ▼ Engages students in role-play activities
- ▼ Caters to the individual needs of each audience

Goal

WRAP commits:

To effectively educate high school students about the dangers of underage drinking and impaired driving while presenting information that students can relate back to their individual lives.

To raise awareness among college students of the newfound dangers of mixing alcohol with campus life as well as the physical and legal consequences of underage drinking and impaired driving that could have a lasting affect on their future.

“Following WRAP’s Alcohol Awareness for Students presentation, youth’s perception of risk associated with binge drinking increased by more than 18-percent.”
